

M. Rouillier Drilling

Near 30 years of experience!

FORAGES
M.ROUILLIER Drilling inc.

Our services

- For over 25 years, M. Rouillier Drilling has been a leader in surface and diamond drilling for the mining industry.
- We cover North America and offer a complete mineral drilling service in any environment throughout the continent, whether for deep hole, directional reflecting and retrievable wedge.

Our services

- During winter, we offer drilling on lakes with the recovery of sludge as well as the manufacturing of ice.
- We can also provide our customers with hydraulic services for the cutting of trees, always with respect for the environment.
- We accomplish our work safely, on time and always on target with the initial budget.

Our social implication

- We insist in planning and attending meetings with the local residents (ex: First Nations)
- We then reduce the risk of social conflict and attendant delays, faster permitting and approvals. This way to proceed reduces the risks of criticisms and interferences from outside parties, and permit a more effective use of corporate resources.
- Experience shows that community engagement does not cost more money. Rather, it results in the more efficient use of existing financials resources.

Our equipment

- 12 ultra modern hydraulic drills
 - Capacity of 3000 metres deep
- Musked drills
 - Capacity of 1000 metres deep

Safety comes first!

- We promote initiatives to prevent troubles to all employees on every site.
- The success of our health and safety policy strongly depends on our employees. Therefore, we are actively working to train and motivate all of them to adhere to the same principles that we follow as a society.

Our environmental policy

- Our policy is to minimize damages to the environment associated with our operations while maintaining a healthy, working, safe and productive environment.
- After each drilling, a complete restoration of the site is conducted to leave no indication of our activity and to minimize any adverse impact on the environment.

E3 – Environmental Excellence in Exploration

- M. Rouillier Drilling is a proud supporter of E3 since the beginning.
- E3 focuses on best practices to help the industry to fulfill its responsibilities.
- E3 provides the tools that will lead us towards better practices for the protection of environment and the commitment to local communities around the world.
